

SHERE KHAN

1. OVERVIEW

Shere Khan is a 5x4 slot utilising the 'All-Ways' mechanic, where symbols connect on adjacent reels to form 2, 3, 4, or 5 of-a-kind combinations. The game also features four fixed jackpots in the base game, along with a Shere Khan (H1) symbol collection pot that can provide an alternative entry into free games, as well as the bonus coins on the reels. Bonus coins can contain additional upgrades to the standard feature entry, enhancing the experience and creating greater variation to each feature. Wild symbols have an exciting multiplier ladder, which will award a chosen multiplier value to any connecting wins after expanding to cover the reel it lands on.

The game has 1,024 ways to win.

2. HOW TO PLAY

- **Set your stake:** Players can choose their stake by pressing the - and + buttons on the left side of the screen. The selected stake will be displayed in the 'Total Stake' meter.
- **All-Ways - 1,024 Ways to Win:** Each press of the PLAY button spins all reels to a random position. Wins pay from left to right across reels 1-5. All winning symbols must appear on consecutive reels, starting from the leftmost reel. To win, players must have at least one symbol visible on the first reel and the same matching symbol on reels 2 and 3. The only exception is the Shere Khan symbol, which pays for 2 matching symbols on reels 1 and 2.
- **Win Calculation:** All winning combinations are added together.
- **Payouts:** All wins will be displayed and paid to the player, but only the highest-paying winning combination will be awarded.
- **Wild Symbols:** Wild symbols can expand to the height of the reel they land on and award a random multiplier ranging from X2 to X8. They can substitute for all other symbols except the Bonus and Jackpot symbols to help create winning combinations. Wild symbols can appear on reels 2, 3, 4, and 5.
- **Bonus Symbols:** Bonus coins can land on all reels (1-5). When three or more Bonus coins land in view, the Free Games feature is activated. In Shere Khan, coins can also land with additional rewards displayed on the coins, enhancing the Free Games experience.

The standard Bonus coin entry is as follows:

- 3X Bonus coins = 8 Free Games
 - 4X Bonus coins = 10 Free Games
 - 5X or more Bonus coins = 12 Free Games
- **Win Thresholds:**

Big Win x20 Stake

Super Win x40 Stake

Mega Win x80 Stake

3. GAME FEATURES

3.1 BASE GAME

- **Shere Khan Symbols:** On winning combinations, a reel of fully stacked Shere Khan (H1) symbols combine into a single symbol and apply an individual multiplier between X5 and X8. Any fully stacked symbols that land on a connecting adjacent reel will also expand, revealing additional multipliers that can combine to create even greater multipliers.
- **Wild Reels:** When a Wild symbol lands in view on Reel 2 or as part of any winning combination, it will expand to reveal a ladder of multipliers from X2-X8. A Wild multiplier value will be selected at random and expand to cover the reel with the selected value. Any Wilds that land on a connecting adjacent reel will repeat the process, combining at the end of the spin to create even greater multipliers.

3.2 JACKPOTS
